

FOETAL ALCOHOL SPECTRUM DISORDER (webinar)

Foetal Alcohol Spectrum Disorder (FASD) is an umbrella term for the diagnosed conditions resulting from prenatal alcohol exposure. This workshop aims to develop an understanding of FASD, its effects on children, and strategies for management of children experiencing FASD.

Participants will learn:

- About FASD and the effects on the foetus.
- What are the behavioural challenges for children and families.
- What are prevention and intervention strategies for parents and carers.
